Re: Modine Manufacturing Company – Camdenton, MO
Quarterly Report for period ending December 31, 2013
AOC No. 99-HW-002

Dear Ms. Kump-Mitchell:

The following is a summary report of the activities completed from October 1, 2013 through December 31, 2013 at the above referenced site. This report is being submitted as required by the Corrective Action Abatement Order on Consent, Order No. 99-HW-002 (AOC) paragraphs 91 through 94.

Description of work completed during the quarter:

As indicated in the last quarterly report, an attempt to conduct a late summer indoor air vapor intrusion sampling event did not occur due to problems with the facility's heating ventilation and air conditioning (HVAC) system controls. As a result of those issues, the HVAC system could not be operated correctly and indoor air conditions would not be representative of an occupied facility. The extent of those issues was beyond the capabilities of the caretaker for a near-term correction.

In mid-October, Modine learned that the facility caretaker would no longer be able to fulfill that role due to health reasons. Modine contacted Simmons First National Bank in December to determine if a new property caretaker had been selected, and if that individual would be able to provide some support for returning the HVAC system to operations. It was hoped, at a minimum, that air exchange and heating capabilities could be restored for a winter sampling event. As of the end of this reporting quarter, the HVAC instrumentation and control problems were not resolved.

Summary of findings, data, etc.:

No additional data was collected or submitted during this monitoring period.

Summary of problems or potential problems and any corrective measures implemented:

See the discussion in the above paragraphs related to the HVAC system controls.

Projected work for the next reporting period:

Modine will continue to coordinate with Simmons First National Bank and its newly appointed caretaker to return the HVAC controls to an operational state.

Instances of Non-compliance with the requirements of the Order:

There were no instances of non-compliance with the requirements of the Order during this reporting period.

If you have any questions concerning this report, please contact Mr. Thomas Meitner, EH&S Manager at (262) 636-1412, or by email at t.e.meitner@modine.na.com.

Sincerely,

Jeffrey A. Decker
